
Available to order now: Opel Mokka Electric with more range

Opel now also offers the Mokka Electric in the top Ultimate trim as a Long Range with a 20 percent longer range. With the new 54-kWh battery, the vehicle now has a range of up to 407 kilometers instead of up to 338 kilometers according to the WLTP standard. Power consumption is reduced to 15.2 kilowatt hours per 100 kilometers. The new top-of-the-range model in the series is now available to order at a price of 44,720 euros.

The Opel Mokka Ultimate Long Range has the more powerful of the two electric motors and accelerates from 0 to 100 km/h in nine seconds with its 115 kW (156 hp). The top speed is limited to 150 km/h. The battery can be recharged up to 80 percent in around 27 minutes at a 100 kW DC charging station. (aum)
