

Driving report Dacia Duster: Robust Romanian

Von Walther Wuttke, cen

The Romanian Renault offshoot presents the third generation of the Duster. The compact SUV has been given a completely new design, but retains the typical elements of the bestseller, which has been produced 2.2 million times since its market launch. Thanks to the new platform, the Duster is now also available with the hybrid drive already used in the Jogger. The brand remains true to its strategy of offering exceptional value for money with the new edition. The price list for the Duster starts at 18,950 euros. The hybrid version costs at least 24,650 euros. (aum)
