

Over 18,000 Ducati riders "ride as one"

For the third time, Ducati riders all over the world came together to ride together under the motto "We ride as one". More than 18,000 motorcycle fans in over 50 countries responded to the call. The event, which is regarded as a warm-up for World Ducati Week (WDW) in Misano at the end of July, was supported by almost 350 official clubs of the brand and local dealers.

Over 700 participants were counted in Germany. The largest event took place in Essen. Five Ducati Official Clubs had joined forces to head to the Zollverein Coal Mine Industrial Complex, a UNESCO World Heritage Site. In Leipzig, the motto of the meeting was "We ride as one - Audi meets Ducati 2024". The automotive parent company also played a role in the outing in Neckarsulm, as Audi Sport was the starting point of the tour, which was accompanied by two RS 6s in Ducati design. (aum)
